

LIQUID LID LIFT

A new *prescription eye drop* can make eyes look *brighter, whiter,* and dramatically more awake. But is the newest *miracle treatment safe* for cosmetic use?

When Tanya Morovati, 41, an anesthesiologist and mother of two from Santa Barbara,

W

New York City plastic surgeon Haideh Hirmand, MD, who does not suggest using drops for cosmetic-only purposes, adds, “Patients think a droopy eyelid is from droopy eyelid skin. It’s not.”
