DR. HIRMAND'S SIGNATURE PLATFORM

Using the body's own biological factors, these bio-stimulatory treatments work on a cellular level to remodel the skin. Enhancing the skin's structural integrity redirects the course of skin aging, preserving the natural and youthful shape of the eyes and face.

EXOSOME SKINFUSION.....Upon Consult

Microneedling + Exosomes - Platelet-derived exosomes regenerate the skin through collagen and elastin production, oxygenation, and the release of growth factors and antioxidants. Microneedling creates micropores in the skin, facilitating the immediate delivery of the exosome serum to the dermis.

PRP SKINFUSION.....From \$950

Microneedling + PRP - Uses microneedling & Platelet Rich Plasma (PRP) derived from each person's own blood to promote collagen synthesis, blood supply, and nutritive growth factors. Tightens, brightens, resurfaces, and renews skin with no downtime.

PRP INJECTIONS.....Upon Consult

Platelet-Rich Plasma - A powerful solution of platelets from your own blood is injected into the skin, stimulating growth factors, decreasing inflammation, and improving skin quality. *Injections in the scalp now available for hair loss.*

HA SKINBOOSTING FILLER.....From \$1,250

Advanced Micro Filler - Droplets of HA filler are injected into the skin's surface, stimulating collagen and elastin. Remodels, repairs, and rehydrates damaged skin. Combine with PRP for amplified results..

NANOFAT.....Upon Consult

Stem Cell + Therapy - Nanofat is a powerful solution of stem cells and growth factors collected from your own fat. Nanofat is injected or needled into the skin to remodel and reverse damage in delicate areas, including under-eye circles, fine lines, and wrinkles.

■ TIGHTEN

ELLACOR.....Upon Consult
